

UPDATE ON TRIAL AT INTERSECTION OF WATERTOWN STREET, CRAFTS STREET, AND
LOWELL AVENUE

JUNE 11, 2008

Since last fall, in an effort to improve safety at the intersection where Crafts Street, Watertown Street and Lowell Avenue converge, a series of trials have been run, subject to the ongoing review and approval of the Traffic Council.

I have just received the following advisory from the city's Traffic Engineer.

'A temporary traffic island was installed this morning at Lowell/Walnut intersection per the ongoing traffic trials in the Lowell/Walnut/Watertown St triangle. A decision regarding the permanent configuration of this area is expected from the Board of Aldermen/Public Facilities Committee this fall.'

Please feel free to contact me if you would like further information.
